Summary

As someone who is intrigued by technology, I have found an intersection between design and development, which I use to create products that are human-centered and can have an impact on people around the world.

Experience

Encora
UX/UI Design Trainee
02/2021 - 06/2021

Conducted research and analysis to improve the Encora's Labs landing site and the Encora's UX Team portfolio.

Projects

Amazon / Tec de Monterrey Project

I led a team for designing with Figma and developing the User Interface with Angular and connecting modules for the complete project.

Education

B.S. Computer Science & Technology
Tec de Monterrey, Mexico City
06/2022
